Your safety is our concern, always

King Price comprehensive car and motorbike insurance clients are entitled to any of the medical assistance services listed below, following an accident. These are completely free, as long as the accident occurs within SA's borders.

Need medical care... We'll be there

If you need emergency medical care, we'll pay to have you transferred to the nearest hospital as quickly as humanly possible.

Further medical transportation... Doing what's best for you

If the treating doctors or medical assistance directors recommend that you be transferred to a different hospital, then we'll cover that too.

Hospitalisation... Bringing you closer to home

We'll transport you to a hospital closer to home, if the current hospital doesn't have the facilities to do so, within 24 hours of the accident occurring. This can only be done if your medical condition permits it, or if your treating doctor advises that longer hospitalisation is required.

Please note:

You, or a person representing you, must call or WhatsApp our emergency assist line as soon as possible and within 24 hours of any incident that leads to you needing immediate medical assistance. This is very important, even if the urgency of the situation required instant assistance from another medical service provider.

What's NOT covered under medical assist

We'll provide you with the medical assistance you need, but the king will be under no obligation to pay for any of the following:

- When the emergency isn't medically justified and can adequately be treated at, or near, the place where the injury occurred.
- If you're able to travel as a seated passenger in any form of transport, without needing a medical escort.
- If you need medical care as a result of you intentionally trying to commit suicide, and/or if you participated in any criminal activity.
